## Ideal for High-gloss Finish Polished Concrete, Stone and Terrazzo Surfaces

#### DESCRIPTION

**Flor-Finish™** is a patented lithium fortified finish for deep penetration, increased surface hardness and superior reflectivity on concrete, stone and terrazzo floors under the **Diamatic Management Services (DMS) Ultra-Flor™ System. Flor-Finish™** is a top of the line stain and wear resistant polished floor guard system; with improved properties that make this product easier to apply and maintain than any other polished floor guard on the market today.

**Flor-Finish™** provides an easy way to protect and enhance the shine and clarity of polished floors. Treated surfaces will have increased durability and improved stain and scratch resistance. We recommend two coats for initial protection. Retreatment in one to two years (depending on wear) with **Flor-Guard Maintainer™** will renew dulled surfaces. Routine maintenance as specified by DMS will maintain reflectivity and preserve the polished finish. The unique treatment is extremely low in VOC's (less than 50 grams per liter), environmentally friendly.

#### ADVANTAGES & BENEFITS

- Non-streaking, fast curing protective treatment
- Resistant to whitening
- Leaves a shiny long lasting reflective surface
- Imparts high gloss reflectivity when burnished
- Superior clarity, will not peel, flake or fade
- Easy to maintain and re-apply — chemically bonds
- Heavy-duty protection against stains
- Easy-to-use, water-based formula
- VOC compliant, environmentally friendly
- Designed for interior use and does not yellow to UV

#### COVERAGE

2,500 sq. ft. per gallon. Note: Coverage or treatment yield will vary with concrete quality, porosity, finish, and environment.
