BMG-780RS

ULTRAPRO Remote Control

The new BMG-780RS ULTRAPRO Remote Control Grinder is the ideal machine to prepare surfaces prior to new coatings, like removal of old coatings or adhesive residues, to smooth or flatten concrete slabs including curled expansion joints, or to just simply remove unsightly surface imperfections. For decorative concrete applications, it is an ideal system for polishing concrete to a high shine or restoring old slabs for newer architectural finishes. The floating shroud with brush skirt is an added feature for those types of processes. The unit also comes standard with a weight kit for proper weight distribution during grinding and polishing.

Working width	31"
Tooling Speed	400-1200 RPM
Head Pressure	700-750 lbs
Motor	23 HP Electric Motor
Power with Amps	(230V) 63 A, 3Ø (480V) 32 A, 3Ø
Dimensions	84" x 31" x 53"
Weight	1074 lbs
Hose Connection	3"
Tooling Diameter	9"
Segment Capacity	18

Key Points

- New frame design and components
- 3 head planetary design
- Virtually dust free when connected to BDC-3140 dust collector
- Dual wheel motors allow for precise speed control
- High tech remote control unit for operation of all controls

Dust Collector Option(s)

BDC-3140LP
