BDC-122

Dust Collector

The Diamatic BDC-122 is equipped with a Longopac bagging system, which is easy to mount and handle. Thanks to this system, the operators won't have contact with the dust in their direct vicinity. The Diamatic BDC-122 dust collection system is equipped with a M-class star filter and it is very versatile. The BDC-122 is ideally suited for use with medium shot blasting, grinding, polishing and scarifying machines.
